

# Investors Mutual Concentrated Australian Share Fund

Factsheet as at 30 June 2018

## Fund overview

The Investors Mutual Concentrated Australian Share Fund provides exposure to an actively managed, concentrated portfolio of quality shares listed on the ASX. The Fund will aim to provide attractive investment opportunities for investors seeking medium to long term capital growth with income. The Fund applies IML's conservative value based investment philosophy with a long term focus and aims to deliver consistent returns to clients.

The portfolio is heavily biased towards companies that are attractive on a risk/return basis and demonstrate lower volatility than the overall market. We see an opportunity to provide our clients with a more concentrated portfolio which is totally index unaware. The Fund will focus on holding a maximum of 30 stocks selected by the portfolio manager that in their view will deliver excellent long term returns to the Fund's unitholders.

## Investment philosophy

IML's investment philosophy is based on the premise that over the long-term, a company's share price will reflect its underlying inherent value. We seek to buy and own companies with a competitive advantage, recurring earnings, run by capable management, that can grow at a reasonable price.

## Investment style

IML has an active, "bottom-up" approach to identifying, researching and valuing quality companies. The investment style is built upon a systematic and disciplined research process that aims to deliver superior risk-adjusted returns by favouring quality stocks whose share prices are significantly different from their assessed 'inherent value'.
