

Investors Mutual Equity Income Fund

Factsheet as at 31 December 2018

The Fund and investment objective

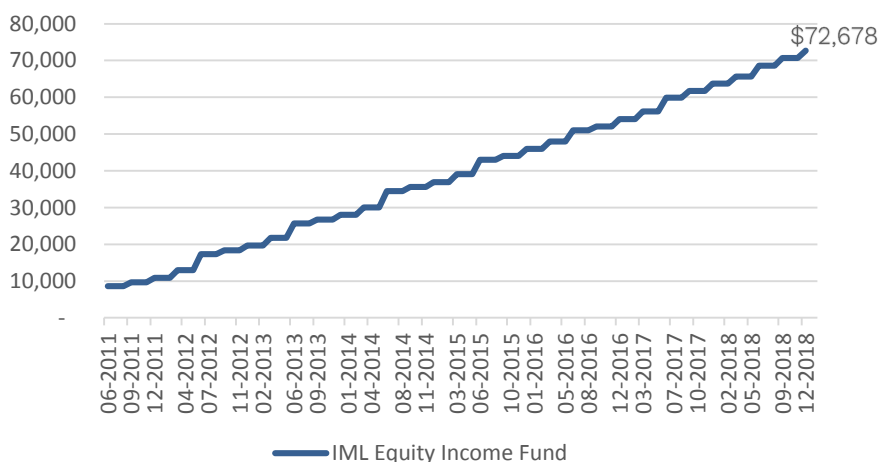

The Investors Mutual Equity Income Fund aims to provide exposure to a diversified portfolio of quality Australian shares for investors seeking a regular and relatively high income stream and lower levels of volatility relative to the ASX300 and capital growth over time. The fund applies IML's conservative, value based investment philosophy with a long term focus and aims to deliver consistent returns to clients.

The Funds income objective is to provide a distribution yield in excess of 2% above the S&P/ASX 300 Index on a rolling 4 year basis (after fees and expenses and before tax). The Funds risk objective is to deliver returns with lower volatility than the S&P/ASX 300 on a rolling 4 year basis.

Investment strategy

The objective of the Fund is to invest in quality Australian shares with consistent and sustainable dividend yields and seek to enhance the income to investors with conservative option strategies.

Investment process

Morningstar Research report

“Investors Mutual (IML) Equity Income earns our highest conviction amongst Morningstar’s Australian equity-income coverage because of a well-considered investment process, particularly relating to options trading.”

“Similarly, the focus here is on companies with steady and predictable earnings streams but with a greater preference for those paying higher than market dividends. The shop’s trademark value investing style is compelling and comes through when selecting stocks and implementing the options strategy.”
