Factsheet as at 31 December 2018

## Fund overview

The Investors Mutual Australian Smaller Companies Fund provides exposure to an actively managed portfolio of quality shares outside of the top 100 listed on the ASX. The Fund will aim to provide attractive investment opportunities for investors seeking medium to long term capital growth with income. The Fund applies IML's conservative value based investment philosophy with a long term focus and aims to deliver consistent returns to clients.

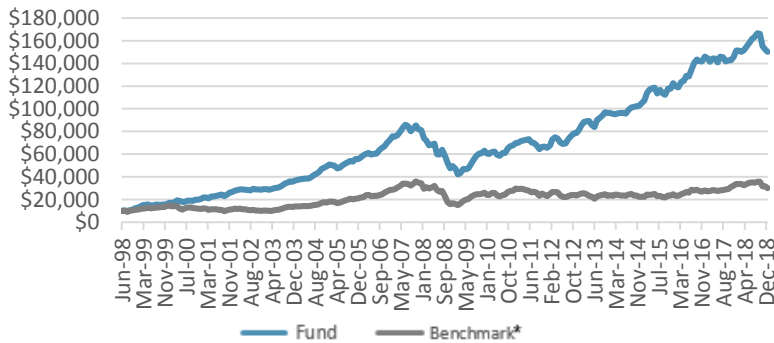

## Investment philosophy

IML's investment philosophy is based on the premise that over the long-term, a company's share price will reflect its underlying inherent value. We seek to buy and own companies with a competitive advantage, recurring earnings, run by capable management, that can grow at a reasonable price.

## Investment style

IML has an active, "bottom-up" approach to identifying, researching and valuing quality companies. The investment style is built upon a systematic and disciplined research process that aims to deliver superior risk-adjusted returns by favouring quality stocks whose share prices are significantly different from their assessed 'inherent value'.
