

Investors Mutual All Industrials Share Fund

Factsheet as at 30 June 2019

Fund overview

The Investors Mutual All Industrials Share Fund provides exposure to an actively managed portfolio of quality industrial shares listed on the ASX. The Fund aims to provide attractive investment opportunities for investors seeking medium to long term capital growth with income. The Fund applies IML's conservative quality and value investment philosophy with a long term focus and aims to deliver consistent returns to clients.

Investment philosophy

IML's investment philosophy is based on the premise that over the long-term, a company's share price will reflect its underlying inherent value. We seek to buy and own companies with a competitive advantage, recurring earnings, run by capable management, that can grow at a reasonable price.

Investment style

IML has an active, "bottom-up" approach to identifying, researching and valuing quality companies. The investment style is built upon a systematic and disciplined research process that aims to deliver superior risk-adjusted returns by favouring quality stocks whose share prices are significantly different from their assessed 'inherent value'.

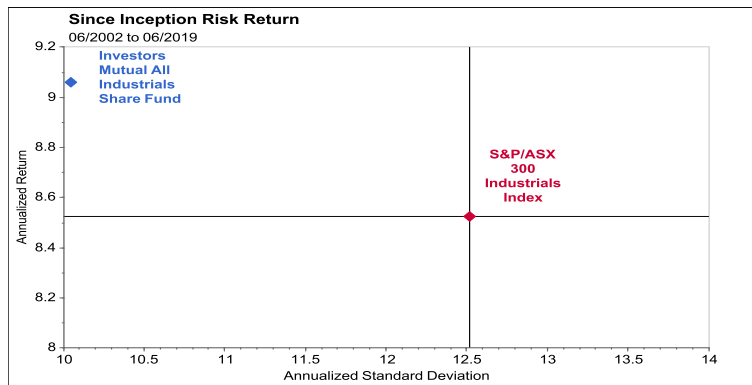

Growth of \$10,000 invested at inception

Past performance is not a reliable indicator of future performance.

Morningstar research report

"The consistently applied approach promotes rigorous research and debate and leads to high stock overlap between portfolio sleeves. The team targets underappreciated companies with steady and predictable earnings, and is willing to back and hold these names through tough seasons--so long as their investment thesis remains intact."

"The team's valuation discipline is one of the strictest in the market, assessing companies using a multitude of metrics for different industries."

Sep 21, 2017

Our competitive advantage

- 16 year track record
- Consistent approach
- Low volatility & turnover
- Focus on quality and income paying stocks
- Long serving PM with large team
- Capacity
