

Investors Mutual All Industrials Share Fund

Monthly Report October 2021

Fund status: OPEN

- ▶ Global sharemarkets enjoyed a strong month led by the US as robust Q3 earnings were released
- ▶ The Australian sharemarket had a lacklustre month despite the benefits of NSW and Victoria emerging from lockdown
- ▶ We continue to use volatility to top up on good quality companies we believe can do well over the next 3-5 years

	1 month	3 months	1 Year	3 years^	5 Years^	Since inception^
Income	+0.0%	+0.0%	+1.9%	+5.7%	+7.1%	+5.8%
Growth	-0.9%	+5.2%	+29.3%	+0.8%	-0.9%	+2.7%
Total Return*	-0.9%	+5.2%	+31.2%	+6.5%	+6.2%	+8.5%

^% Performance per annum. *Fund returns are calculated net of management fees, and assuming all distributions are re-invested. Investors should be aware that past performance is not indicative of future performance. Returns can be volatile, reflecting rises and falls in the value of underlying investments.

**The benchmark for this Fund is the S&P/ASX 300 Industrial Accumulation Index

Sharemarket Commentary

Global equity markets rebounded strongly in October with the MSCI World index returning +5%. The gains were led by the US, with the S&P500 gaining +7%, capping its strongest month this year and returning the index to record highs following last month's -5% pull back. Despite weaker than expected GDP growth and soft results from both Amazon and Apple, given ongoing supply chain disruptions and tightening in the labour market, US Q3 reporting season proved robust with the majority of companies beating earnings expectations. Across the Atlantic the mood was equally buoyant with Europe's Stoxx50 index returning +5.2%.

Given increasing inflationary trends, bond markets endured a volatile month as investors attempted to predict central bank policy in the wake of accelerating CPI data. Both the US and Australian yield curves experienced significant flattening with short-dated bond yields rising meaningfully on the expectation that central banks will have to act more swiftly than previously expected to stem inflationary pressures. Commodity markets remained volatile.

The Australian sharemarket, as measured by the ASX300, finished the month flat, a lacklustre return relative to its global peers. Despite both NSW and Victoria emerging from lockdowns the market failed to find any real direction. The Resources sector was soft over the month. Within the industrials segment of the market, sector performance was mixed. Healthcare was buoyed by sector heavyweight CSL, with headwinds in plasma collection beginning to abate as economies reopen. The Consumer Discretionary sector gained +0.6% for the month, albeit with mixed performance. A number of the boutique retailers performed well off the back of physical store re-openings, encouragingly before the Christmas rush. However, the sector was weighed down by hefty falls from Star Entertainment in light of money laundering accusations, Pointsbet following a soft trading update on its lofty US expansion plans and a soft trading update from Domino's Pizza, which had enjoyed a stellar run courtesy of the lockdowns. Conversely, the Consumer Staples sector finished the month lower, largely as a result of Woolworths and the Endeavour Group intimating the challenges of navigating COVID-related disruptions through their supply chains, a major obstacle for many companies as festive season volumes are expected to ramp up.

The *Investors Mutual All Industrials Share Fund* had a lacklustre month, shedding -0.9% compared to the benchmark's return of +0.2%. A few of the Fund's core holdings such as Aurizon, Brambles and Pact Group experienced weakness over the month on what we believe are short-term issues. During the month Aurizon announced the acquisition of One Rail Freight – a move which was viewed negatively by investors. We assess the One Rail acquisition as one which is being done at an attractive valuation and which is transformative for the company. The One Rail acquisition will allow Aurizon to grow its bulk business and gain exposure to commodities other than coal whilst also expanding the company's operations into both South Australia and the Northern Territory. Brambles sold off following the company's Q1 trading update which emphasised the company's increasing investment in the digitisation of their pallet pooling system to optimise operational efficiencies and allow for significant cost savings in the years ahead. Pact fell on the announcement that higher input prices were impacting its contract manufacturing business (which is non-core), while importantly the company also announced that its core packaging and materials handling businesses continue to perform well. We used weakness in the share prices of Brambles and Pact to top up our holdings as, in our view, they had been oversold and are now significantly undervalued. The Fund benefited from strong performance in holdings such as Orica, Event Hospitality, Metcash and Nine Entertainment. Over the month we took advantage of strong share price performances in companies such as NAB and Tabcorp to trim our holdings.

We believe the sharemarkets will continue to be influenced greatly in coming months by the volatility in interest rate markets caused by uncertainty over whether current inflationary trends are transitional or becoming embedded, and how central banks will react. As such we continue to steer away from the riskier parts of the sharemarket and remain focused on identifying and holding good quality companies that, in our opinion, are well managed, which offer sound value and which we believe can do well over the next 3-5 years.
